

Scott Aronson
 President

Looking back on 2025, I'm proud of the momentum we've built on the foundation of 90 years of continuous operations. This year, PECO strengthened its national footprint, supported landmark projects, and reinforced our position as the industry leader in cable supports.

Our commitment to operational efficiency, responsive customer service, and improving our inventory continues to set us apart. None of this is possible without the dedication of our employees, representatives, and distributors.

Thank you for being part of the #PECOdifference.

The Name to Know – PECO

Category Leadership in Motion

We reinforced our leadership position in cable supports and hazardous location products. From vertical riser assemblies (bodies and wedges) to flexible couplings for hazardous locations, PECO highlighted its deep inventory and consistent specification wins. The 2025 messaging sharpened brand positioning around reliability, availability, and national coverage—strengthening distributor confidence and contractor awareness.

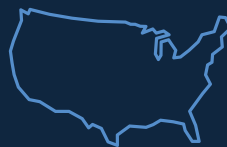

SUPPORTING LIFESAVING CARE IN THE ANDES

During a visit this summer to Peru's Sacred Valley, Scott Aronson toured the soon-to-open Vidawasi Pediatric Hospital in the Urubamba province. The hospital will provide childhood cancer and specialized pediatric care to an underserved region with more than 800,000 children. Inspired by the hospital's whole-family care model, PECO was proud to donate conduit fittings to assist in their completing construction.

Faustin Georges, one of our wonderful team members in the warehouse, passed away on July 16, 2025. He brought an amazing work ethic to PECO and his smile always made the days brighter. Our condolences to his entire family, including his brother and brother-in-law who are part of the PECO team.

IN MEMORIAM

Expanding the Representative Network

Stronger Local Coverage. Nationwide Strength.

Our new partnerships enhance regional accessibility, technical support, and distributor engagement in strategic markets. By investing in experienced rep agencies, PECO reinforced its commitment to long-term growth in high-demand regions.

We are pleased to welcome:

- AERO Sales – OH
- Cahaba Sales Group – AL, GA, FL Panhandle
- Coast to Coast Electrical Sales – FL
- Clifford Sales – Expands to MI

Specified in the Structures Defining Tomorrow

NISSAN STADIUM – FUTURE HOME OF TENNESSEE TITANS

PECO products continue to support the backbone of modern electrical systems. These projects reinforce a reputation for reliability and performance under demanding conditions. Our cable supports were specified in construction across hospitality, healthcare, commercial high-rises, and mission-critical infrastructure in buildings such as: Mass General Hospital, the Hard Rock Las Vegas guitar tower, Nissan Stadium, and in major data centers constructed across the U.S.

PECO IS GROWING

Expanded NY Facility in January 2026

- ✓ New Building for Increased Inventory Capacity
- ✓ Enhanced Warehouse Operations & Logistics
